BRIGHTLY – 10x10

STEP 2: Lift Panels 1–3 over baseplates and drop into place.
Bolt panels together using (5x) 1.5" bolts per seam.

Tighten limit screws on wooden plate
next to baseplate to stiffen connection.
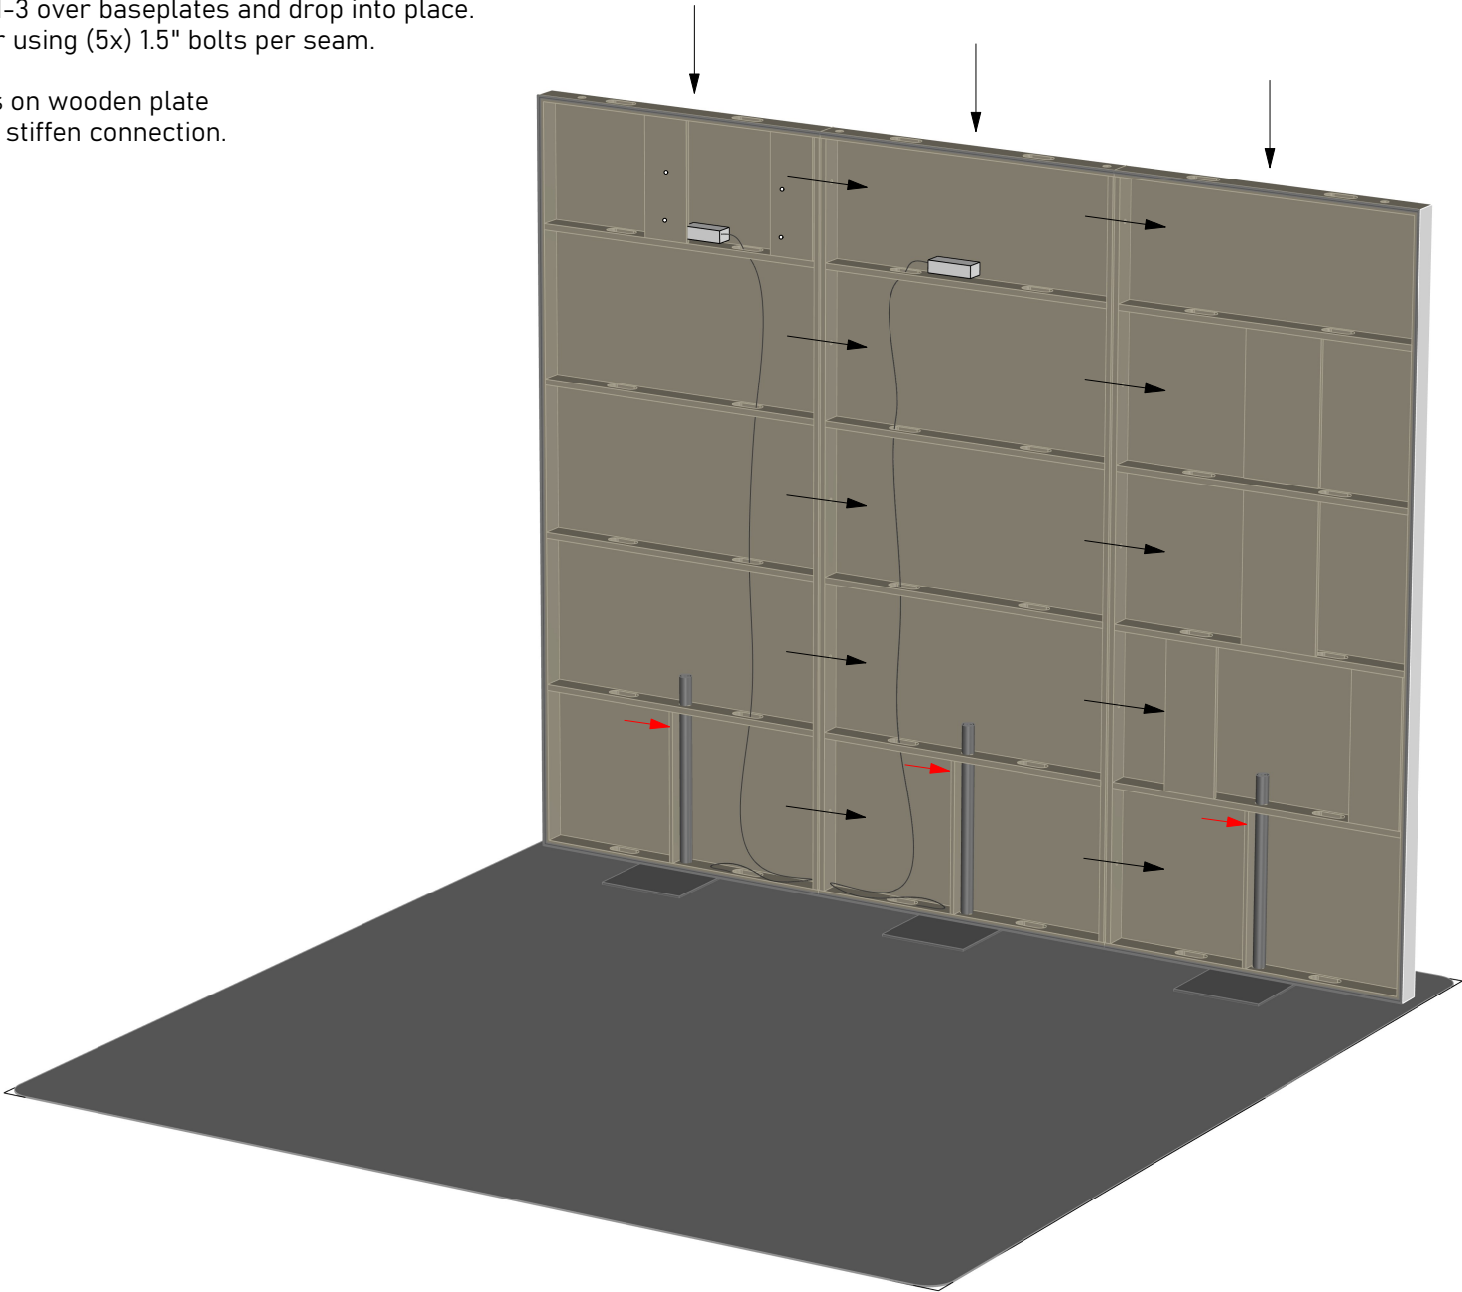

BRIGHTLY – 10x10

STEP 3: Bolt Lit Header Panels together using (2x) 1.5" bolts.

Drop connected Lit Header Panels into place, registering holes with dowels in top of Panels 1–3.

Bolt Lit Header Panels to backwall using (4x) 2" bolts.

BRIGHTLY - 10x10

STEP 5: Hang SEG graphic by working the gasket into the F-channel aluminum extrusion around perimeter.

Be sure to run 32" Monitor HDMI and power cable, and LED power whip for sign through slit in SEG fabric before completing the install.

Begin at the top edge and work the slack down to the bottom right corner, with pull tab.

Please wear included white cotton gloves while installing to avoid marring the graphic.

Smarter assets, sustainable communities.
